- **Programs & Applications:** Flash, Flex, Photoshop, Illustrator, Dreamweaver, InDesign
- **Other:** Graphic production, illustration, simple animation, video editing, motion graphics

Objective

To work in an environment where my skills are utilized and challenged by creating stable and enjoyable interactive experiences, preferably in an educational, science or entertainment based context.

Career Experience

Creative Perspectives, Inc.   Oct. 2006 – Present
Multimedia/Web Developer   Charlottesville, VA
http://www.creativeperspectives.com

- Development of interactive rich-media training modules for pharmaceutical sales representatives using Flash, Flex and ActionScript 3.0.
- Production of training resources websites using HTML, CSS, PHP and Javascript.
- Production of multimedia assets including graphics, interactive, animation, audio and video.
- Assist in development of proprietary content delivery platform "Marionette™" using Flex, Flash, ActionScript and XML. (http://marionette.creativeperspectives.com)
- Management of client-facing pre-release files and websites via FTP and Subversions.

Non-Career Experience

Skills that are not used daily in a professional environment, as well as new skills, are polished, refined and explored through production of personal projects.

- murfSTUFF: Personal WordPress site with custom theme, and custom PHP/MySQL art gallery. http://www.murfstuff.com
- Vana'diel Heroes: Community website for an online gaming group built with PHP/MySQL. http://heroes.murfdesigns.com/ (User: guest, Password: password)

Education

Full Sail University   May 2005 – June 2006
Associate of Science in Digital Art & Design   Winter Park, FL

- 3.6 GPA; Studies focused on entry-level skills in graphics, web, video and multimedia production.
- Won 4 achievement awards, including awards for PHP and Interactive Portfolio courses.

Charlottesville High School   Graduating Class of 2001

Examples of my work can be seen on my portfolio at http://www.davis-murphy.com.
